

Large Format Cutting Systems

The new Europa large format cutting system combines a number of interacting products which together offer a high degree of performance and accuracy at a price unmatched by similar systems. The unique lightweight, single extrusion design of the Europa cutter rails offers incredible rigidity which allows the cutter to span widths up to 10 feet. The cutting head includes a magnetic blade magazine which accepts utility blades and scoring blades. A 45mm textile cutting wheel and holder is also included as standard.

Europa Elevators (Optional)

Adding a pair of elevators will allow you to raise and lower either cutter bar making it possible to align and cut the largest work by a single operator.
